GISOVU TEA FACTORY  
07 JULY 1994

Subject: Submission of our suggestion.

Mister the Director of the Factory

We, Cpl Gd Ndindabahizi and Cpl Gd Hategeka, after having realized that there is some equipment that we need for our work here, would like to request that we go to the camp to bring them and even to see whether we can increase them.

Here in Gisovu food is a very serious problem. The food is expensive and people, who can help us, ask for a lot of money or simply refuse.

We request for the following things that we think can be obtained. In case it is not possible to get them, please let us go to the camp?

Cpl Gd Hategeka
